

# FoodFit

## Compatibility Program

### Extra Item instructions

Extra Items are preferable with the **initial test** or **within the first month after initial test**.

To align with the purpose of the Compatibility Program, please encourage only wholefoods to be tested. Extra items may include wholefoods that are not on the list, or food/recipe made from wholefoods. Avoid sending commercially sold, pre-packaged food.

### EXTRA ITEM REQUIREMENTS

For extra items a **very small sample** is required; along with a **new hair sample** (if not with the initial test).

- approximately **¼ tsp of the item** in a **small** zip locked plastic bag.
- For liquid, only **1 drop** in the bag.
- Write the **name of the product** and the **client's name** on the bag.
- The 'cost' fee is \$10.00 per item.
- Maximum of **5** samples.
- **Fill in E-form** with the number of items and the product name

### IMPORTANT NOTE:

\* Our testing equipment is unable to test large samples. This includes large plastic bags. Any amounts larger than what is specified above, **will not be able to be tested**.

\* It is important to stipulate to your clients, sending more than 1 drop of liquid will run the **risk of leakage and cross contamination over the other samples, and therefore, will not be able to be tested**.
